<a href="http://www.youtube.com/watch?v=Gau-QgLBhEg">http://www.youtube.com/watch?v=Gau-QgLBhEg</a> - Reporter forced back by Mayodan Police for asking Senator Phil Berger a question	
<p>Please support USWGO's efforts to expose and fight corruption by checking out USWGO's sponsor Crazy Wolf Radio. They are a wonderful internet radio show that I have called into months ago. Putting a tiny sponsor ad should be okay since the image I am posting here is hosted at the uswgo.com web server and takes bandwidth for each view but USWGO wants the people to be aware of the police corruption spreading everywhere.</p> <p></p> <p>Right up there at that picture of Phil Berger's unofficial bodyguard. <b>You don't question god Phil Berger at the Mayodan Town Council.</b></p> <p>It has gone this far and they will be coming after me for posting but it is far too late as I will be killed at a FEMA Camp due to my disabilities and health problems and I know North Carolina has a Fusion Center by the DHS. The police declares me the enemy. The chief of police treats me as the enemy of Mayodan because of the Fusion Centers extensive database on USWGO and me Brian D. Hill. I don't care let the Fusion centers spy on USWGO. I am not afraid of the DHS. I am already going to die so I ain't afraid to fight for my life.</p> <p>I have always respected the police and always been nice to my towns chief of police. His actions just shows me how mistaken I was that I thought our town had a good police chief.</p> <p>Source: <a href="#">USWGO Alternative News</a></p> <p>At around July 9th, 2012 during the Mayodan Town Council meeting, things go from bad to worse at the town council meeting, and all I did as a reporter was ask NC State Senator Phil Berger a question before the chief of police forced me out which is in the video I got recorded. Somehow I recorded audio when the cop forced me out the whole time and even left a remark to have fun with the New World Order multiple times before getting my stuff. There was no audio of the cop intimidating me though but at least I got a recording of part of the whole ordeal.</p> <p>First while the people were around and leaving the cop told me that when the session closes I am suppose to leave out of there so they can have their private meeting before the meeting is entirely closed. I didn't know all that so I should not have been treated like a criminal. Then of course the cop went further in making sure I never go up to state senator Phil Berger to ask him a question. Then minutes later when I was going to explain to the officer that I have type 1 brittle diabetes, he interrupted me then started telling me that the way I was going up to the state senator with a camera (Like I was in the wrong for that), told me how like those city council meeting videos on TV where someone comes sup quickly to shoot a political official, and acted as though I was coming up to him fast to do something terrible to him or even do something that threatens his life. He said that he knows that I didn't show that I was intending to do that but then he started saying to me that if I go up to the state senator like that again he will</p>	

push me back or something like that. Basically he was gonna force me back as if I am gonna hurt him or go into a bar without an ID. That was the way he was acting and being close to me, close to my space. Then I told him I promise I won't do that again then he badgered me a little bit more then I said I am sorry and said scouts honor then he backed off. Then when my mom came in to the town hall office area to check up on me, whenever she left she saw the chief of police watching us and that gave her a bad feeling.

Mayodan Chief of Police and the entire town council is no doubt apart of the New World Order. They know who I am and they know what I stand for so I will have to lay low after the two postings I will make. Please stand for us or we will all hang separately. Even if they aren't 100% in on the New World Order money masters they are apart of this partially by some subsidiary group or pack of corporations that work with the Bilderberg Group. The town of Mayodan is not immune to the garbage and BS of the New World Order and that is a fact as a news reporter I have been in 2-3 years.

I welcome all of you to the Tyranny Council of Mayodan. Please take your seat as we the police are watching your every move if you keep making public comments and stand up here. We will intimidate and threaten you if you dare to ask questions of the state senator. Again Welcome to the Tyranny Council.

The Global elites run your towns and cities.

Oh my!!! people I know won't like this at all 😞

People need to be aware they cannot rely on their town and city councils to save them. We need a old fashion peaceful revolt by unifying everybody all over America then start flushing out the dirty republicans and democrats that are compromised. Then we put in politicians that can restore the sanity in our Government and undo the legal damage done by the Global Elite.

Don't even get upset at the Chief of Police because he is just following orders like a robot. They all just follow orders and not the Constitution anymore. Robots don't follow the Constitution they follow whatever order they are given.

All we can do is leave the system and the corrupt system will collapse on itself like a house of cards.

Time to get people out of the Matrix.
